GELJET™ : colour multitasking transformed

Imagine the power of versatile colour on demand. Rethink your approach to colour multitasking with Gestetner's innovative new GELJET™ multifunctionals (MFPs). Equally at home in both retail and office environments, the Aficio SG 3100SNw/SG 3110SFNw provide fast colour copying, printing, scanning and faxing (SG 3110SFNw) for everyone. And they make it easy with simple front access, a small footprint and the cable-free connectivity of WiFi.

Space-saving design

These compact MFPs save you space in retail and office environments. Everything is easily accessible from the front, so you can slide GELJETS into the smallest of spaces.

Versatile networking

GELJET™ MFPs offer extended network capability. WiFi connection is standard, enabling easy printing from locations normally inaccessible using cables. These innovative MFPs are also compatible with IPV6 as well as environments using multiple operating systems including Windows 64bit and Mac OS X.

Unique ECOnomy Color

In ECOnomy Color mode, GELJETs can distinguish between text and images – text is printed solid black, while image thickness is reduced by half. So you get quality colour documents at virtually the cost of black & white.

Simplify everyday tasks

High-performance multitasking

Get fast output thanks to an extra wide print head. Print and copy at speeds up to a rapid 29 ppm. Quickly scan multiple documents. Do all this with the added benefits of a high capacity paper tray and Super G3 faxing with the SG 3110SFNw.

Nice and simple operation

Simplify everyday tasks with the SG 3100SNw/SG 3110SFNw's easy-to-use control panel. Benefit from a 'one touch' solution key that allows you to personalise your routine jobs. Access every essential operation from the front, including paper and ink cartridges without moving your MFP.

Bring high quality in-house

Produce professional looking results in-house. Print on a wide range of paper sizes and weights up to 256 g/m² thick via the optional bypass tray. Quick drying Liquid Gel™ allows clear sharp prints up to true 3,600 x 1,200 dpi, and enables high speed duplex printing.

A secure green workflow

With partially recyclable plant-based plastic chassis, toxic free materials* and energy-saving features, GELJETs reflect Gestetner's commitment to the environment. They also comply with the latest Energy Star and Blue Angel (BAM) international standards.
