

Quality and speed - Driven by Fiery®

Color Controller E-7200

Top quality, high speed

Inject quality and speed into your high-end print environment, with the new E-7200 Color Controller. It connects seamlessly with the Gestetner MP C6501SP/MP C7501SP digital colour multifunctional products to create a truly powerful combination. It offers high quality colour output, extensive variable data printing (VDP) and superior workflow management. The result? Colour printing has never been easier, faster or more accurate. It's ideal for all kinds of users ranging from office workgroups to publishing professionals.

- High speed: driven by Fiery SmartRIP® technology and super-fast processor.
- Top quality: via next-generation colour management system.
- Easy to use: with intuitive and fully automated workflows.
- Increased profitability: VDP made easy.
- Added value: with automated folding and order stacking.
- Extra security: special erase feature on the hard drive.

More jobs in less time

HIGH SPEED

The E-7200 Color Controller is a digital colour production powerhouse that can handle the heaviest of printing tasks with ultra-fast processing. That's because it uses the Intel Core Duo T2500 2.0 GHz processor with 1 GB of RAM. In addition, its Fiery SmartRIP® technology uses highly intelligent processing to optimise RIP performance, which enables you to complete one job while simultaneously processing another. Short turnaround times are guaranteed.

TOP QUALITY

High quality jobs in a wide variety of file formats is ensured by Fiery ColorWise® 3. This is a next-generation colour management system that provides extensive colour controls from calibration to ICC profile management, as well as spot colour processing for printing. Also, when files have a mix of CMYK and RGB data, Fiery ColorWise® 3 enables you to control each data type independently. With the E-7200, what you want is what you get.

EASY TO USE

The Command Workstation 5, provided with the E-7200 Color Controller makes light production more intuitive and highly flexible. It centralises job management by connecting with servers on the network, while the drag-and-drop capabilities of the user-friendly interface keeps everything clear and simple, enabling anyone to confidently manage complex workflows.

INCREASED PROFITABILITY

Advanced job management software gives you easy-to-use, fully automated workflows. These optimise productivity and also enable you to maximise profits by quick and easy handling of complex jobs such as valuable VDP projects.

ADDED VALUE

You can also offer extra services, with just a few mouse clicks. The E-7200's straightforward imposition functions enable you to print, fold, and stack entire documents in booklet order. Additional services include chapter separation, image shift, centering adjustment, tab print, full bleed print, scale to print, and ring binding.

ENHANCED SECURITY

IP Filtering and Port Blocking controls the access to the MP C6501SP/MP C7501SP devices. While Safe Erase provides a higher-level of document security by removing traces of job data from the E-7200 Color Controller's hard drive.

ENVIRONMENTALLY FRIENDLY

At Gestetner we help you to lower the environmental impact of your office as well as lowering your costs. Our products have eco-friendly and money saving features such as fast duplex printing and copying, ultra low sleep mode and increased toner yield. Thus, paper, time and energy are saved while waste and costs are reduced. In addition, Gestetner products are Energy Star compliant. This means less CO2 is produced in providing the energy needed to run Gestetner devices.

Color Controller E-7200

COLOR CONTROLLER E-7200

CPU:	Intel Core Duo T2500 2.0 GHz
Memory:	Standard: 1 GB HDD: 80 GB
Print speed:	Full colour: 60/70 prints per minute B/W: 65/75 prints per minute
Printer language:	Standard: PCL5c, PCL6, Adobe® PostScript® 3™
Scan resolution:	Maximum: 600 dpi
